

APOORVA A P

apoorvaalur22@gmail.com | +91 8050230100 | Shivamogga, Karnataka, India | linkedin.com/in/apoorva-a-p | [Portfolio Website](#)

PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience developing and testing full-stack web applications through academic and personal projects. Quick learner with strong problem-solving and debugging skills, adaptable to fast-paced, collaborative environments, and committed to writing clean, efficient code.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering
PES Institute of Technology and Management, Shivamogga, India

2022 – 2026
CGPA: 7.5/10

TECHNICAL SKILLS

Programming Languages: Python, C, JavaScript, PHP, SQL

Web Technologies: React.js, HTML5, CSS3

Databases & Tools: MySQL, HeidiSQL, Git/GitHub, XAMPP, IntelliJ IDEA, VS Code

WORK EXPERIENCE

Web System Engineering Intern

Swizosoft (OPC) Private Limited, Uttar Karnataka, India

Feb 2026 – May 2026

- Designed and developed scalable, responsive UI components using **React.js**, testing each component for edge cases and cross-browser issues before shipping production-ready features for enterprise-grade, client-facing web applications.
- Participated in agile sprints and structured code reviews, flagging defects with clear, reproducible write-ups and tracking them through GitHub to resolution.
- Identified and resolved interface bottlenecks and functional defects in distributed web systems through systematic, detail-driven testing, enhancing responsiveness and streamlining user workflows throughout the application.

Web Development Intern

May 2024 – July 2024

Surena Management Solutions (OPC) Pvt. Ltd., Shivamogga, India

- Built and enhanced web application modules using **PHP, JavaScript, and SQL**, writing maintainable, well-structured code and testing it against defined cases within an agile team workflow while adhering to industry standards.
- Integrated and tested **REST APIs** and managed relational database schema via **HeidiSQL**, applying OOP design principles to structure and modularize backend logic effectively.
- Debugged and optimized **SQL queries**, root-causing data inconsistencies and documenting fixes clearly to improve data retrieval consistency and performance across multi-tiered application modules.

PROJECTS

Cascading ACO–PSO Based Virtual Machine Allocation in Cloud Data Centers

June 2025 – Nov 2025

Java, CloudSim Plus, Git/GitHub

- Designed a cascading **Ant Colony Optimization– Particle Swarm Optimization scheduling** model for distributed cloud infrastructure, reducing VM deployment latency and improving resource utilization at scale.
- Built a fault-tolerant distributed simulation framework in **CloudSim Plus**, modeling **VM scheduling** across large-scale data centers with load balancing and network overhead reduction.
- Conducted rigorous benchmarking and comparative testing across multiple optimization configurations, systematically logging edge cases and results to evaluate energy efficiency, throughput, and performance tuning.

Placement Portal – Mini Project

Mar 2024 – May 2024

HTML5, CSS3, JavaScript, PHP, MySQL, XAMPP

- Implemented authentication and **role-based access control (RBAC)** using OOP design patterns in a multi-tiered web application system, testing across multiple user roles and edge cases to ensure scalability, maintainability and performance
- Designed and tested role-specific dashboards for administrators and students, optimizing application workflows and form pipelines to significantly reduce user friction.
- Developed an automated email notification module to keep students and administrators informed on application and interview status updates in real time, reducing manual follow-ups significantly.
- Manually tested registration, application, and dashboard flows, surfacing edge cases and writing clear, reproducible bug reports.

PUBLICATIONS

Cascading ACO–PSO Based Virtual Machine Allocation in Cloud Data Centers

International Journal of Multidisciplinary and Scientific Emerging Research (IJMSERH), Volume 13, Issue 4, October–December 2025.

CERTIFICATIONS

- AWS Academy Cloud Foundations – AWS Academy Graduate
- Build Responsive Websites with HTML & CSS – Udemy

LEADERSHIP & VOLUNTEERING

- Technical Coordinator & Event Host** – Dept. of CSE, PESITM: Coordinated and hosted 10+ technical and cultural events.
- Contributor- Peer Developer Network:** Contributed to developer communities across 3 student organizations through collaborative events and student engagement; organized hackathons, resource-awareness drives, and technical masterclasses; and delivered technical talks to 500+ students on leveraging free developer tools, open-source platforms, and learning resources..
